AMADOR TOWNSHIP ROAD UPDATE

Amador Township gravel roads are graded after a rainfall.

Please note that we grade our gravel roadways as often as possible, but it helps if you slow down when driving on them.

- **SNOW PLOWING:** *The roads will be plowed after a 3-4” snowfall accumulation. Roads are sanded as needed as we have a contract with Shafer Township for this service. **It is illegal to push your snow across any roadway.***
- **Emergency blue street numbers MUST be located next to your driveway!**
DO NOT move or remove them.
Emergency vehicle drivers look for these signs next to your driveway—that is why they are there!
If you live on a private road or a county or state highway—please contact us at amadortownship@gmail.com or call a supervisor to order your address sign—their cost has not been included in your driveway permit.

RIGHT-OF-WAY—the township owns 33 feet from the center line of each township roadway. If trees/crops/fences are in the right-of-way, they will be removed when a road is ditched. Ditching roadways is in the township road plan.

- **Any and all driveways require a permit before they are installed.**
- Amador does not have a full-time maintenance person.
- **Check roadway / snow policies on www.amadortownship.com**
- **Make sure to keep your property roadway access open for emergency vehicles all year long!** *Damage incurred to any emergency vehicle due to your driveway condition including access width/trees will result in an insurance claim.*

PLAYGROUND EQUIPMENT

Amador Township received \$9,600 from the Chisago County Park Dept. this summer for Amador Township parks. That amount plus apple festival donations allowed us to purchase new playground equipment.

This equipment has been delivered or is now arriving and will be installed this fall. Triangle Park, Amador Heritage Center Park and the Ball Park will all receive some new free-standing equipment. This equipment, however, needs to be installed!

YOUR HELP IS NEEDED!

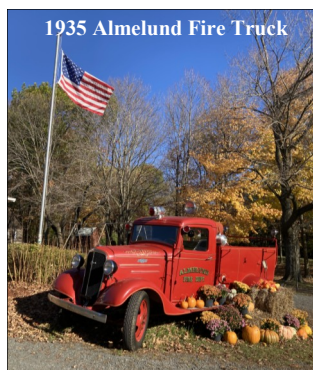

Please contact Township Supervisor Clay Larson (612) 408-4507 for more information on this project!
